Questions, concerns, announcements

- Tabling and office hours are somewhat inconsistent due to our testing schedules each week, but we are working to make them as consistent as possible.

Monthly summary

Last month, we spent the majority of time getting to know one another and sharing our goals and ideas for the future.

In September, we began brainstorming projects to do on campus. We are currently in the stages of finalizing those. We also started tabling on campus in an effort to get USG’s name out more and work on transparency.

In the coming month, I plan to begin work on our selected projects and hold our first Nice to Meet USG event!
