**Other Items:**

- to be revisited next semester: a joint promotional event between the BSM clubs with giveaways or food open to campus
- Nadira offered USG social media accounts to support the posting of the existing BSM social media presence (i.e. promotion, advertising events, posting release/airing schedules) instead of each club creating more accounts for themselves
- Laurel wanted to promote better the club’s willingness to lend out sound equipment to members of the campus and Erika wanted to have other committees and organizations know about the discounted advertising and publishing opportunities to Brett’s question on communicating with other committees
